Inspection

Type: ROUTINE INSPECTION

Date: AUG-17-2005

1010 MIRACLE STRIP PKWY, SE  
FT WALTON BEACH, FL 32548

3.101

FACILITIES, GENERAL.

(3) All surfaces in a primary enclosure must be constructed of durable, nontoxic materials that facilitate cleaning, and disinfection as appropriate, sufficient to maintain water quality parameters as designated in ?3.106. All surfaces must be maintained in good repair as part of a regular, ongoing maintenance program. All facilities must implement a written protocol on cleaning so that surfaces do not constitute a health hazard to animals.

\*\*\*The IA pool and the rookery have severe cracks along the waterlines. These cracks must be repaired to prevent chips from breaking off and falling into the water which could then be ingested, in addition repairs shall be made to prevent a buildup of debris and bacteria which can contaminate the water. To be corrected by December 1, 2005.

Current Inventory: 1.3 bottlenose dolphins, 0.2 spotted dolphins, 4. 8 sea lions, 2 river otters, 0.1 grey seal, 1.3 harbor seals.
